GUSTAV/IKE ACTION PLAN AMENDMENT 26

Amendment Number 26 to State of Louisiana Action Plan for Disaster Recovery – Utilizing Funding from the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009 (Public Law 110-329).

The State of Louisiana was allocated a total of \$1,093,212,571 for recovery from hurricanes Gustav and Ike.

Since the original submittal of the state's Disaster Recovery Action Plan to HUD on January 8, 2009, the state has received several approvals of subsequent Action Plan Amendments for program designed to receive CDBG disaster funds. This **Action Plan Amendment 26** is being submitted to HUD for approval of the reallocation of funds from the *Economic Revitalization* program to the **Allocation to Parish** program and the **Admin, Planning and Technical Assistance** program. The reallocation of funds are intended to correct the movement of funds and provide clarification for the Allocation to Parishes program.

This APA 26 is considered non-substantial because it does not create new programs, does not change eligible beneficiaries and is less than a 15% change in funding levels.

Gustav/Ike Action Plan Amendment 26: Reallocation of Funds from Economic Revitalization program to the Allocation to Parishes program, and the Admin, Planning, and Technical Assistance program.

I. Reallocation of Funds for Existing Programs

A. Allocation to Parishes

The Allocation to Parishes Program will be increased to \$565,541,122 to reconcile the program budget. In addition, consideration has been given to the allocation method used to determine the amount of funds available to each parish, and the limitations it may put on the final projects. The method does not allow for individual project increases due to current market conditions. The state will add an exception to the allocation method to include the following:

“The state reserves the option to offer additional CBDG funds outside of the previously approved parish allocation. Funding will be granted to on-going projects with funding gaps, or new projects that meet a LMI national objective and can be completed within the state’s program completion timeline.” Currently, as shown on the below allocation table, there is \$3,499,881.98 available for additional project funding.

This program was created in Action Plan, Amendment 1 and amended in Amendment 25.

D. Economic Revitalization

The Economic Revitalization Program is decreased to \$66,101,443.23 to reconcile other program budgets. The state has determined sufficient remain to serve all eligible applicants.

H. Admin, Planning and Technical Assistance

The Admin, Planning and Technical Assistance Program will be increased to \$53,764,355.78 to reconcile the program budget and provide additional funds to continue capacity-building efforts. This program was created in Action Plan, Amendment 1 and last amended in Amendment 25.
