FEMA-4559-LA
FEMA-4611-LA

Narratives

Disaster Damage:

2020 Storms
Louisiana was impacted by three major disasters in 2020 – Hurricane Laura (DR-4559), Hurricane Delta (DR-4570), and Hurricane Zeta (DR-4577). Combined these storms resulted in 47 of Louisiana's 64 parishes receiving a disaster declaration for FEMA IA, 24 of which are qualified for appropriation under Public Law 117-43.
Hurricane Laura (DR-4559)
Hurricane Laura developed into a major Category 4 hurricane just hours before making landfall, despite its previous projection as a Category 2 storm. It had sustained winds of 150 miles per hour when it struck Cameron Parish on Thursday, August 27, 2020. Hurricane Laura is the strongest storm to make landfall in Louisiana recorded history and is the fifth strongest storm at landfall in the United States. Hurricane Laura brought a significant storm surge to Cameron Parish and maintained major hurricane strength as it brought catastrophic destruction to numerous parishes. Because of its speed, it maintained hurricane strength as it traveled through Louisiana's northern parishes before eventually exiting Louisiana and entering Arkansas with tropical-storm-force winds. According to the Louisiana Department of Health, Hurricane Laura led to a total of 31 storm-related deaths.
Twenty-one Louisiana parishes were declared eligible for FEMA Individual Assistance in response to Hurricane Laura: Acadia, Allen, Beauregard, Caddo, Calcasieu, Cameron, Grant, Jackson, Jefferson Davis, La Salle, Lincoln, Morehouse, Natchitoches, Ouachita, Rapides, Sabine, St. Landry, Union, Vermilion, Vernon, and Winn.
By August 28, 2020, the Louisiana Public Service Commission reported over 500,000 residents were without power and the Louisiana Department of Health reported that 82 separate water systems throughout 24 parishes were completely compromised and unable to provide water to hundreds of thousands of citizens. The majority of water systems throughout Calcasieu Parish were either on a boil water advisory or completely incapable of providing water. St. Mary Parish experienced salt-water intrusion that rendered their water unfit for consumption, and the parish had to buy water to bring to its citizens. Beauregard Parish reported 100 percent power outages, compromised water, and sewer systems that deprived thousands of citizens of water and basic sanitation needs. Beauregard Parish responded to numerous reports of citizens trapped in their homes. State and local assets were provided to assist the parish with its Search and Rescue missions and to clear roads that were blocked by fallen trees, power lines, and other debris.
The City of Lake Charles in Calcasieu Parish experienced unprecedented winds that tore apart numerous structures in and around the city. The Isle of Capri Casino, a floating casino, became unmoored, floated to the I-10 bridge, and became wedged under the bridge. A fire began at a nearby chlorine plant, releasing dangerous fumes to the surrounding area.
Congregate shelters for survivors are not utilized for long-term sheltering in order to mitigate the spread of COVID-19. To provide non-congregate sheltering in the COVID-19 environment, the Governor's Officeof Homeland Security and Emergency Preparedness (GOHSEP) immediately contracted with hotels around the state to provide over 1,500 rooms for nearly 3,500 survivors from southwest Louisiana. Ultimately, over 21,000 survivors from Hurricane Laura evacuated and were sheltered in non-congregate shelters.
Currently, the impacted areas are facing workforce challenges and the potential for a sustained mass exodus of the population as residents seek out available housing options across Louisiana and oftentimes, out of state. Thousands of housing units in southwest Louisiana remain uninhabitable due to severe hurricane impacts. Some units cannot be repaired, and many communities risk being overcome by blight.
As recovery efforts continue throughout the impacted areas, lack of preparation for housing needs has left many essential workers with no place to stay post-disaster. With strains on the workforce, the region's importance as an energy hub to the entire nation also risks increased costs felt across the country. Further, as roughly half of the housing stock in the area was damaged, and the demand for both permanent and temporary housing increases due to significant loss of units, the cost of

housing continues to increase for residents.
Hurricane Delta (DR-4570)
Hurricane Delta made landfall approximately six weeks after, and just 13 miles, from where Hurricane Laura struck and followed a similar path, devastating many of the same communities again. Hurricane Delta made landfall in Louisiana on Friday, October 9, 2020, as a strong Category 2 hurricane. Outer bands from Hurricane Delta began impacting Louisiana almost 24 hours before landfall, bringing significant amounts of rainfall during the evening of October 8, 2020. When Hurricane Delta struck Louisiana, it brought high storm surge, heavy rain, and damaging winds. Parts of Calcasieu Parish had already received 16-17 inches of rain by the time Hurricane Delta made landfall. According to the Louisiana Department of Health, Hurricane Delta led to a total of six storm-related deaths.
Twelve Louisiana parishes were declared eligible for FEMA Individual Assistance in response to Hurricane Delta: Acadia, Allen, Beauregard, Calcasieu, Cameron, Iberia, Jefferson Davis, Lafayette, Rapides, St. Landry, St. Martin, and Vermilion. All of these parishes, with the exception of Iberia, Lafayette, and St. Martin, were also hit by Hurricane Laura.
Although the citizens and local governments in southwest Louisiana had been working nonstop to conduct recovery operations after Hurricane Laura, there were still thousands of buildings that had not yet been repaired. Over 8,000 blue tarps could be seen on rooftops prior to Hurricane Delta's landfall, and piles of debris that had not yet been removed dotted the landscape. Survivors who were forced to evacuate for extended periods due to utility outages barely had time to evaluate their homes before once again being forced to evacuate ahead of Hurricane Delta. Further, many Hurricane Laura survivors found their buildings and residences were flooded by Hurricane Delta just six weeks after being damaged by Hurricane Laura's winds.
On October 10, 2020, the Louisiana Public Service Commission reportedthat over 688,000 Louisiana citizens were without power. Nearly all of the parishes in southwestern Louisiana and many in central and northern Louisiana received catastrophic damage from Hurricane Delta. Trees and power lines caused numerous road blockages. The Louisiana Department of Health reported that 71 water systems serving a population of over 32,000 were impacted and 74 Boil Water Advisories were in effect for over 220,000 survivors. Due to inaccessibility issues from flooding and road damages, full Preliminary Damage Assessments were not immediately feasible.
Louisiana agencies and their partners were able to return all but 8,000 Hurricane Laura survivors to their home parishes in the weeks after Hurricane Laura with approximately 6,000 spread across several Louisiana hotels and 2,000 in Texas hotels. Approximately 2,000 of the survivors that were able to return to their home parish were able to do so during the week prior to Hurricane Delta. As a result of Hurricane Delta, almost 1,000 additional survivors reported to Louisiana shelters. Survivors were staged in congregate settings while state and local governments assessed the conditions of their homes. Those with major damages were again sheltered in hotels.
The immediate mass exodus of the population seen from Hurricane Laura with the potential for significant impacts to the population and workforce was exacerbated by the continued devastation of Hurricane Delta. Thousands of housing units in southwest Louisiana remain uninhabitable due to severe hurricane impacts. Some units cannot be repaired, and many communities risk being overcome by blight.
As recovery efforts continue throughout the impacted areas for both Hurricane Laura and Hurricane Delta, the lack of preparation for housing needs has left many essential workers with no place to stay post-disaster. With strains on the workforce, the region's importance as an energy hub to the entire nation also risks increased costs felt across the country. Further, as roughly half of the housing stock in the area was damaged, and the demand for both permanent and temporary housing increases due to significant loss of units, the cost of housing continues to increase for residents.
Since both storms hit the same general areas, 3,899 individual homes that were damaged in both Laura and Delta were counted only once in summary tables.
2021 Storms
Louisiana was impacted by three major disasters in 2021 – Severe Winter Storms (DR 4590); May 2021 Severe Storms (DR 4606); and Hurricane Ida (DR 4611). Combined these storms resulted in 49 of Louisiana's 64 parishes receiving a disaster declaration for FEMA IA.
Hurricane Ida (DR-4611)
Hurricane Ida made landfall in Lafourche Parish on August 29, 2021, with sustained winds of 150 mph, just shy of a Category 5 storm. Hurricane Ida is tied with Hurricane Laura in 2020 as the strongest hurricane to strike Louisiana. Significant rainfall brought five to 10 inches of rain in areas throughout the state, with up to 17 inches recorded just outside of New Orleans, causing severe flash flooding that overcame levees and resulted in hundreds of high-water rescues. The wind gusts from the storm led to parish-wide power outages, uprooted trees, and debris that covered streets and barred transportation. Terrebonne and Lafourche parishes were particularly hard hit along with St. John, St. James, St. Charles, and large portions of lower Jefferson. According to the Louisiana Department of Health, Hurricane Ida resulted in a total of 29 storm-related deaths.
Twenty-five parishes were declared eligible for FEMA Individual Assistance in response to Hurricane Ida: Ascension, Assumption, East Baton Rouge, East Feliciana, Iberia, Iberville, Jefferson, Lafourche, Livingston, Orleans, Plaquemines, Pointe Coupee, St. Bernard, St. Charles, St. Helena, St. James, St. John the Baptist, St. Martin, St. Mary, St. Tammany, Tangipahoa, Terrebonne, Washington, West Baton Rouge, and West Feliciana.
Wind gusts of 172 mph were measured near landfall at Port Fourchon, and Hurricane Ida remained a major hurricane, above a Category 3, for nine hours after making landfall. Some areas saw 17 inches of rain during the storm, causing localized flooding across Southeast Louisiana, along with sustained high winds, storm surge, and heavy rainfall, causing major damage to private homes and forcing state and local governments to incur significant costs associated with saving lives and preserving public health and safety.
Hurricane Ida's 150-mph winds crippled south Louisiana's power grid, forcing critical infrastructure like hospitals, water and wastewater systems to implement emergency measures to be able to continue critical disaster recovery functions. Hurricane Ida left residents with widespread flooding, significant power outages and debris-covered streets. After the storm, more than 1 million Louisiana customers were without electricity.
Over 900,000 residents in Louisiana were without power following Hurricane Ida, some for over a month. According to Entergy, the storm damaged or destroyed more than 22,000 power poles, 26,000 spans of wire, and 5,261 transformers. Hurricane Ida accounted for more electric poles damaged or destroyed than by Hurricanes Laura, Delta, and Zeta combined.

Recovery Needs:

Louisiana residents across the state are looking to rebuild and recover after six different federally declared disasters occurred in just two years amidst an ongoing pandemic. In total, 60 out of the 64 parishes were impacted by at least one of the disasters of 2020 and 2021. From Hurricanes Laura, Delta, Zeta, and Ida, 100,778 homeowners sustained wind damage, an estimated 75 percent without homeowners' insurance.
The state immediately began citizen engagement efforts following the 2020 disasters to gather data regarding impacts and unmet needs, beginning with local officials and personnel in the impacted communities. Citizen engagement efforts remain ongoing through the public comment period to inform program design and keep a pulse on the outstanding unmet needs of Louisiana residents. The Louisiana Office of Community Development - Disaster Recovery Unit will lead a series of public meetings across the state, with in-person meetings held in the most impacted parishes. The state is taking measures to ensure all public hearings are recorded and made available to the public after each meeting. The state has also worked closely with local leaders and stakeholders to ensure Louisiana residents were made aware of this funding allocation and the opportunity to present feedback. Citizen engagement efforts include but are not limited to public hearings, social media outreach, earned media engagement, traditional marketing around the availability of the draft action plan for public review, and additional targeted outreach in the 15 FEMA-declared MID areas from Hurricanes Laura and Delta.
As Louisiana has received Community Development Block Grant Disaster Recovery (CDBG-DR) funding allocation under PL 117-43 for 2020 Hurricanes Laura and Delta, a critical function of assessing unmet needs comes from the four remaining federally declared disasters that have impacted the state in 2020 and 2021. To fulfill the requirements of this allocation, the

state must submit an Action Plan for Disaster Recovery that identifies its unmet recovery and resilience needs to the Department of Housing and Urban Development (HUD). Governor John Bel Edwards has designated the Louisiana Office of Community Development - Disaster Recovery Unit as the administering agency for these recovery funds. On behalf of the State of Louisiana, the Louisiana Office of Community Development - Disaster Recovery Unit has developed the following Action Plan to outline the proposed use of the CDBG-DR funds and eligible activities available to assist declared parishes to meet unmet housing, economic revitalization, infrastructure, planning, and other needs that have resulted from Hurricanes Laura and Delta.

Through this Action Plan, the state presents unmet need estimates from the 2020 storms and the additional needs that have arisen from subsequent 2021 disasters that have compounded total disaster related unmet needs across the state. Based on the Unmet Needs Assessment presented in this document, the state has calculated a total unmet need of $4,478,097,577 attributable to Hurricanes Laura, Delta, and Zeta and an additional $8,489,208,010 attributable to Hurricane Ida.

The state used best available data sources to perform these analyses. Detailed analyses of losses sustained and the resources already made available are informative as to the dollar thresholds associated with damage in housing, infrastructure, and economic revitalization. They also include numeric quantities associated with the demographic characteristics of the area of impact.

While the state is cognizant an award large enough to cover all unmet needs is not reasonable to expect as a result of these disasters, it does believe this unmet need total illustrates the unique nature of these disasters relative to those from which it has coordinated past long-term recovery activities. Specifically, Hurricane Laura's, Delta's, Zeta's and Ida's powerful winds cut across a swath of rural Louisiana, that while lacking in dense population centers provides essential drivers to Louisiana's economy – specifically in the agriculture and timber industries, for which this disaster was as catastrophic as any in the state's history. Still, given the intent of the CDBG program, the state will – as it has in the past – first prioritize housing recovery activities in effectuating its long-term recovery efforts.

The proposed allocation of funding described in this Action Plan includes activities for the administration and planning of recovery programs, housing, infrastructure, and economic revitalization. The housing programs proposed are wide ranging. They include:

- Options for rehabilitation and reconstruction of damaged owner-occupied homes;
- Construction or rehabilitation of affordable housing units;
- New construction or renovation of residential rental properties;
- Permanent supportive housing;
- Temporary rental assistance for rapid rehousing;
- Soft second mortgages for gap financing to support homeownership;
- Flood insurance payment assistance in conjunction with rehabilitation and reconstruction of owner-occupied homes; and
- Gap financing for LIHTC developments.

In addition, the state is implementing a Hazard Mitigation Grant Program, Nonfederal Share Match Program, a Resilient Communities Infrastructure Program, and a Small Business Loan and Grant Program. The implementation of the proposed recovery programs will increase stability to residents and businesses alike through infrastructure and economic restoration, while prioritizing LMI households and MID areas.

The State of Louisiana will implement all programs and be responsible for the distribution of funds. Depending on a continued assessment of unmet needs, mitigation needs, and additional funding, the state may allocate funds to parishes or other subrecipients through future substantial Action Plan Amendments. The programs established in this Action Plan are not entitlement programs and are subject to available funding.

Overall Progress Narrative:

In 2026 Q2, OCD continued making progress on the implementation of the following programs:

- FMA-SWIFT (Non-Federal Share Match Program)
- RLHP20 Flood Insurance Assistance Program
- HMGP Global Match Program
- Homeless and Housing Stability Development Program
- RLHP20 Interim Housing Program
- Middle-Market Loan Program
- Nonfederal Share Match Program
- Rapid Rehousing Program
- Permanent Supportive Housing Program
- Rental Restoration and Development
- Resilient Communities Infrastructure Program
- Resilient Mixed Income Gap Funding Program
- Restore20 Louisiana Homeowner Program
- Small Business Loan and Grant Program
- Soft Second Mortgage Program

During the 2026 Q2, a total of $151M in disaster recovery CDBG funds were expended on the Homeowner, Housing, Economic Recovery and Revitalization, Infrastructure and Public Services, and Administration and Planning Programs designed to assist Louisianans in the recovery from 2020 Hurricanes Laura and Delta, and 2021 Hurricane Ida.

Furthermore, OCD worked with its local, State, regional partners, and stakeholders to assess outstanding unmet recovery needs, as well as develop and amend programs to address those

unmet needs. Details on project costs, beneficiary data, and performance measures can be found within this document. Note: For all activities in this QPR without narratives, there were no expenditures in this quarter.

Narrative: LDI Q2 Narrative for Prime 3, closed another development with the last one closing next month, there are 15 developments under construction Last Quarter Funds were for Admin, Delivery and project Costs. One Development 95% is completed. Accomplished last quarter of Prime 2, 29 Developments closed, 23 have obtained construction completion 95% and above. Funds disbursed last Quarter were from admin, delivery and project costs.

Homeless and Housing Stability Development Program

Grant	Proposed Budget		Proposed MID Threshold Budget HUD Identified		Proposed MID Threshold Budget Grantee Identified	
	This Period	To Date	This Period	To Date	This Period	To Date
P-21-LA-22-LDZ1	$ 0.00	$ 18,725,000.00	$ 0.00	$ 14,980,000.00	$ 0.00	$ 3,745,000.00
B-22-DF-22-0001	$ 0.00	$ 0.00	$ 0.00	$ 0.00	$ 0.00	$ 0.00
B-21-DZ-22-0001	$ 0.00	$ 0.00	$ 0.00	$ 0.00	$ 0.00	$ 0.00
B-21-DF-22-0001	$ 0.00	$ 18,725,000.00	$ 0.00	$ 14,980,000.00	$ 0.00	$ 3,745,000.00

Narrative: During the quarter ending June 30, 2026, LHC continued meeting with developers that were awarded funding to monitor their progress toward completing all required closing documents. Melrose IV and 1122 OCH made significant progress during the quarter and are nearing closing. Serenity continues to work through

bonding issues that have delayed closing activities. Cornerstone remains involved in litigation, which has impacted project progress. LHC met with the Cornerstone development team to discuss the project's status and will issue a formal letter establishing strict deadlines for meeting project milestones. Failure to meet these deadlines will result in recapture of the awarded funds. Expenditures during this reporting period were limited to activity delivery costs.

Narrative: There is a total of $1,155,712,885.11 in obligated awards as of 6/30/2026 representing 13,297 households. There have been 12,865 housing projects completed to date. Of which, 1,477 projects were completed in this quarter. The Solution 4 Buyout Program continued active implementation across six participating parishes impacted by Hurricanes Laura, Delta, and Ida. Program staff continue to work closely with applicants to complete documentation and move cases through the pipeline while ensuring compliance program requirements.

Activity Description:

Up to five percent of the overall grant will be used for administration of the grant. Funding has been allocated to administration to fund the necessary costs of setting up and managing the CDBG-DR recovery programs including application intake, compliance monitoring, performance tracking, management of the Disaster Recovery Grant Reporting system, and quarterly reports, as well as general administration.

Location Description:

East Baton Rouge Parish

Activity Progress Narrative:

6/30/2026: Expenditures this quarter were for administrative expenses. kp

Activity Description:

The Middle-Market Loan Program will provide gap financing to support the rehab and/or construction of multi-family buildings that serve a range of household incomes, with the goal of using higher-cost units to generate deeper affordability for LMI renters.
That range of “middle-market” rents also allows participants to embed units with deeper affordability into higher-income areas, which provides good, stable housing in high-opportunity areas to low-income families, and encourages socioeconomic integration in communities.
Projects funded through MMLP will require OCD standards of safety, environmental sustainability, and resilience to storm hazards, which will not only ensure the longevity and quality of those projects, but will also positively influence design and building standards for Louisiana’s affordable housing industry.

Location Description:

Orleans Parish

Activity Progress Narrative:

6/30/2026: Funds spent in this quarter were for project costs and activity delivery costs. kp

Activity Description:

The Resilient and Mixed Income Piggyback Program (PRIME) provides funding for the construction of quality, affordable multifamily rental developments.
PRIME requires that all new units incorporate disaster resilience measures to provide better outcomes in a major storm or rain event. The program's policies have the stated goal of providing more social and physical security in the rental and housing market and encouraging innovation in building practices to lessen future storm impacts to property and residents.
With the additional proposed resources from PRIME, the state can ensure that rental units created to address rental needs in impacted areas will also protect low-income rentals from future disasters.
In addition to being required to meet the programmatic LIHTC requirements, applicants eligible for PRIME assistance are required to develop new, quality, affordable rental housing using higher standards and innovative practices in order to lower the risks from storm and hurricane-related impacts. The funding will provide developers with the opportunity to use workable approaches to resilient housing (such as, but not limited to elevated structures/mechanicals, building materials/technologies, power generation, topography and landscaping, retention/detention ponds, etc.) toward development of nearly two dozen properties, which are substantially more likely to fare better in major storms than existing properties in similar locations.

Location Description:

Caddo Parish, Calcasieu Parish, East Baton Rouge Parish, Iberville Parish, Jefferson Parish, Livingston Parish, Orleans Parish, Rapides, Parish St. John The Baptist Parish, St. Mary Parish, St. Tammany Parish, Tangipahoa Parish, Terrebone Parish, West Baton Rouge Parish

Activity Progress Narrative:

6/30/2026: Expenses this quarter for Prime 2 and Prime 3 were for project costs, admin and activity delivery. kp

Activity Description:

The Soft Second Mortgage Program provides homeownership assistance to first time, low- and moderate- income homebuyers, by providing affordability gap funds through a second mortgage. Borrowers will be required to stay in the home as their primary residence for at least 10 years

Location Description:

Multiple Parish

Activity Progress Narrative:

6/30/2026: Expenditures were for homebuyer assistance. kp

Activity Description:

The Louisiana Housing Corporation (“LHC”) will implement the Rental Restoration and Redevelopment Program to provide assistance to landlord applicants (“Eligible Applicants”) experienced in renting residential properties to tenants, or developing infill residential rental housing to be located in areas adversely affected by Hurricanes Laura, Delta, Ida and the May of 2021 Floods. LHC will accept applications from applicants who will construct new residential rental housing units (“New Units”) or will renovate residential rental housing units (“Existing Units”) in a qualified project, located in one of the parishes declared to be disaster areas (“Eligible Parish”) as a result of Hurricanes Laura, Delta, Ida and the May of 2021 Floods .

Location Description:

Acadia Parish, Allen Parish, Beauregard Parish, Caddo Parish, Calcasieu Parish, Jackson Parish, Jefferson Davis Parish, Lafayette Parish, Ouachita Parish, St. Landry Parish, Vernon Parish

Activity Progress Narrative:

6/30/2026: Funds expended during this quarter were for program delivery and remibursement for the rehabilitation of two single family homes and new construction of a duplex. LHC confirmed initial lease up for the two singe family homes during this quarter. kp

Activity Description:

The proposed project will raise the bridge deck elevation by approximately 2'. Earthwork will be required to achieve this. This elevating of the embankment approaches will widen the approach tie-in to the surrounding grades and will therefore require subsurface drainage to enclose the roadside ditch drainage connections to the drainage channel. A guardrail approximately 75' long will be required at each bridge quadrant as a roadside safety measure.

Location Description:

223 Poplar Street (estimated), Elizabeth, Allen Parish, Louisiana 70638. This activity is set up using Area Benefit Survey because the 2020 ACS was not available.

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services, environmental, engineering, planning, and design services. kp

Activity Description:

This project will address critical structural and safety deficiencies in the historic Assumption Parish Courthouse. Key renovations include reinforcing compromised structural elements, upgrading flood protection systems, modernizing electrical infrastructure, and ensuring full ADA and code compliance. All improvements are designed to enhance disaster resilience and preserve the courthouse's essential role in community services and emergency operations.

Location Description:

4809 Highway 1
Napoleonville, Assumption Parish, LA 70390

Activity Description:

The project will consist of new construction of a 2,118 SF facility. There will be ground disturbance as well as internal and external construction. An environmental assessment will be necessary. The activity uses the HUD local government LMI data set because the activity only benefits the entire locality and doesn't venture outside the locality's geographic boundaries.

Location Description:

1518 Belden St, Lake Charles, Calcasieu Parish, LA 70601

Activity Progress Narrative:

6/30/2026: Expenditures were for Grant Management. kp

Activity Description:

This project includes a grant to the ABC Pelican Chapter (501c3) for the development of a school that will support the Pelican Chapter of Associated Builders and Contractors. The activity uses the HUD local government LMI data set because the activity only benefits the entire locality and doesn't venture outside the locality's geographic boundaries.

Location Description:

2000 and 2200 Gertsner Memorial Drive, Lake Charles, Calcasieu Parish, LA 70601

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management. kp

Activity Description:

The project involves site development, building a foundation and constructing a roughly 4,000 SF building including all interior and exterior fixtures including roofing, steel structure, plumbing, insulation, flooring and fire alarm system. Some features of the building include four classrooms, a multimedia room, offices, a kitchen, and a broadcast room. Storage, restrooms, a waiting area, and a mechanical room round out the supporting spaces. There will be earthwork involved for sitework and foundation. There will be moderate to extensive targeted ground disturbance, thus an environmental assessment will be required prior to construction.

Location Description:

4460 5th Avenue, Lake Charles, LA 70601

Activity Progress Narrative:

6/30/2026: Expenditures were for Grant Management. kp

Activity Description:

This project will involve significant earthwork and excavation for the facility's foundation and some trenching for utilities to bring sewer, water, and electrical lines from the street to the building location, ideally along the path of the new street entry. The entry and expanded parking lot will also require excavation and clearing. There will be moderate to extensive targeted ground disturbance, thus an environmental assessment will be required prior to construction. The facility will follow traditional building critical milestones. The site will be prepped with careful attention to any existing trees and also ensure erosion is limited during the construction period should rainfall occur. Demolition for some existing play structures and other shelters will be required. Due to a new building being constructed, new road, and expanded parking lot, the amount of disturbance on the site will likely exceed 20% of the current footprint.

Location Description:

NW Corner of Opelousas Street and August Drive

Activity Description:

The construction involved will be moderately intrusive as it will involve excavation and earthwork to reconstruct streets and sidewalks, as well as trenching for utilities, namely the underground drainage system along the Ryan Street corridor. There will also be site-specific digging several feet into the ground for streetlight pole foundations.

Location Description:

Ryan Street from I-10 to Railroad Avenue & and Railroad Avenue from Ryan Street to Reid Street, Lake Charles, Calcasieu Parish, LA 70601

Activity Progress Narrative:

5/5/2026: L/D reduced by 4M due to City has requested to cancel this activity 10LDRC7706 LC RR Ave Revitalization. Activity status was changed to Cancelled. kp

Activity Description:

The Wright Road Detention Pond Project involves the construction of an inline detention pond along Parish channel L-1A (CR-BD-L14015) within the Bayou D'Inde subbasin. The project aims to increase stormwater capacity during rain and high tide events, reducing the flood risk for structures within the sub-basin by detaining stormwater runoff until it can be safely discharged.

Location Description:

Vacant land along West side of Wright Road and South of Patch Street
Sulphur, Calcasieu Parish, LA 70665

Activity Progress Narrative:

6/30/2026: Expenditures were for Grant Management. kp

Activity Description:

The proposed projects supported by RCIP funding include street and drainage improvements as well as the creation of new park space within the larger Mid-City Choice Neighborhood Initiative (CNI) Project to support existing and future development. Infrastructure improvements will include the construction of a portion of the overall development's streets, sidewalks, drainage, and lighting.

Location Description:

694 Karole Ave, Lake Charles, Calcasieu Parish, LA 70601

Activity Progress Narrative:

6/30/2026: Expenditures were for construction costs. kp

Activity Description:

The City of Lake Charles will construct one (1) new multi-purpose sports facility to provide recreational and social opportunities to a currently underserved LMI area of Lake Charles. This versatile public facility will address an outstanding need for citizens through its primary use as a community recreation center which will provide targeted activities aimed at engaging at-risk youth in a safe, structured environment. Additionally, similar activities will be provided for adults including parenting workshops, job training and career placement, pregnancy to birth counseling and support services, healthcare screening, diet and exercise activities, credit repair, financial literacy and expungement workshops, disability and therapeutic recovery programs, and appropriate social activities. The facility will be available to be used as a shelter or safe location during emergencies such as future hurricanes or other disasters. There are no other indoor facilities like it in the area.

Location Description:

1 Lakeshore Drive, Lake Charles, LA 70629

Activity Progress Narrative:

4/27/2026: Creation of new activity 10LDRC7714 - LC Indoor Rec Center in RCIP, DRGR project 3122 for 12,248,163.00. The City of Lake Charles will construct one (1) new multi-purpose sports facility to provide recreational and social opportunities to a currently underserved LMI area of Lake Charles. This versatile public facility will address an outstanding need for citizens through its primary use as a community recreation center which will provide targeted activities aimed at engaging at-risk youth in a safe, structured environment. Activity Description:

The Project involves reconstruction, incorporating elevation and resiliency improvements at the Davis Road Pump Station (Pump Station C). The project is a reconstruction on the existing site of a station destroyed in Laura/Delta. The scope at the site involves: site preparation to include initial earthwork such as site clearing, grading, and excavation to lay foundations for resilient structures capable of withstanding extreme weather. It includes the measures required for elevation above projected flood levels, with reinforced, corrosion-resistant materials for long-term durability. The site will include internal and external installment of flood resilience structures incorporating storm-resistant materials to safeguard equipment against hurricane-force winds and saltwater intrusion.

Location Description:

Davis Road
Cameron, LA 70631
Cameron Parish

Activity Progress Narrative:

6/30/2026: Expenditures were for Grant Management and Environmental. kp
4/27/2026: L/D increased by 2,210,486.16 (from 3,520,170 to 5,730,656.16). MID budget adjusted accordingly. kp

Activity Description:

The Watershed Rain Gauge Flood Alert project is designed to meet an urgent need for the Parish and is planned to provide a crucial asset to the local communities and decision-makers to understand where water flows and how it can lead to flooding. Cameron Parish currently does not have the complete gauge coverage needed to mitigate the critical informational gap for mitigating future flood risk and responding to heavy or sustained rain events. Therefore, the Parish has prioritized investing in enhancing the existing rain gauge monitoring network for local protection and in support of ongoing and future watershed management activities funded by the State under the Louisiana Watershed Initiative (LWI). The Parish program will further supplement the overall goal of the LWI river and rain gauge program to inform waterway and watershed management and improve the quality of life statewide.

Activity Description:

The F&B Incubator will be constructed on a vacant parcel within the Churchill Technology and Business Park, which is a master-planned campus for economic development. The CDBG-DR funded scope is for purchase and installation of equipment and fixtures within the facility, so will have minimal environmental disturbance. It will consist of equipping three commercial kitchens, demonstration and training space. The facility will prioritize resilient design to mitigate damage from future disasters, incorporating features such as generator backups, elevated buildings and equipment, stormwater management, green infrastructure, and potentially solar power.

Location Description:

700 Church Hill Parkway
Avondale, LA 70094
Jefferson Parish

Activity Progress Narrative:

6/30/2026: Expenditures were for grant consulting fees related to environmental review. kp

Activity Description:

The Plan will identify design and elements anticipated to incorporate flood mitigation through green infrastructure and stormwater retention systems, ensuring long-term resilience to future disasters. The anticipated outcome is a Plan for a project to implement that includes a revitalized community park, reduced flood risks, improved environmental sustainability, and increased economic and social opportunities, fostering a more resilient and vibrant Jesse Owens Neighborhood.

Location Description:

11101 Newton Street River Ridge, LA 70123
Jefferson Parish

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management consulting fees. kp

Activity Description:

Project includes the installation of two (2) permanent 100 KW stand-by generators, with associated concrete slab foundations and authomatic transfer switches, for 2 of the community center buildings. The remaining six (6) community centers will each receive a new double-throw transfer switch for connection to portable generators. Jefferson Parish has portable generators available in-house which they will distribute and install to serve the buildings during power outage events such as storms and natural disasters.

Location Description:

1. Bridge City Community Center at 301 Third Emanuel Street, Bridge City, LA 70094 (29.933526111637434, -90.16613262168664)

Activity Description:

The project will involve acquiring a parcel of land. Construction will include clearing and grubbing the site, site preparation, removing existing pavement, and performing extensive excavation in preparation for the new pump station. Also includes installation of new concrete catch basins and subsurface drain lines. The new pump station will include a pile-supported reinforced concrete structure with reinforced concrete wet well and two CFS drainage pumps, piping, and appurtenances, diesel backup generator, and electrical, controls, and SCADA system, and safety features such as handrails and ladders. Dewatering operations, relocation of overhead power lines, and the setup of temporary erosion control measures to maintain site stability during construction will also be part of the project.

Location Description:

4977 Chas Pizani Street, Barataria, Jefferson Parish, Louisiana 70036

Activity Progress Narrative:

5/5/2026: Ida 2 increased by 1.8M due to budget correction for JEF Chaz Pizani (26LDRC7709). Budget change for Ida 2 from 0.00 to 1.8M to balance allocation. kp
5/5/2026: Ida 1 reduced by 1.8M due to budget correction being submitted for JEF Chaz Pizani (26LDRC7709). Ida I allocation being updated from 5.9M to 4.1M to balance Ida I allocation. MID budget adjusted accordingly. kp

Activity Description:

The oxygenation system to be deployed consists of a two-part system to be installed at 4 lift stations feeding the WTPs. It is designed to both generate and deliver oxygen to the process to mitigate odor and reduce corrosion-causing compounds in the wastewater system. The benefits of oxygen injection technology include improved odor control and lower operating costs.

Location Description:

6250 Lapalco Blvd Marrero, LA 70072; 2343 Pailet Avenue, Harvey LA 70058; Jefferson Parish. This activity is set up using Area Benenift Survey because the 2020 ACS was not available.

Activity Progress Narrative:

6/30/2026: Expenditures were for purchase of equipment (5,641,000), grant consulting fees, and subrecipient staff payroll. kp

Activity Description:

The scope involves acquisition and demolition of a commercial building to the conversion to a pocket park modeled after Paley Park in New York city, which will feature shaded seating, trees and green infrastructure for stormwater management. Paley Park has demonstrated that small urban areas can serve multiple purposes such as being a popular meeting spot and a place for relaxation and calm reflection in a busy urban setting, as well as provide storm water management benefits. The project includes an estimated 8,000 square feet (0.18 acres) of improved community public space. The project includes an estimated two (2) green infrastructure bioretention cells (rain gardens) and 100 linear feet of green infrastructure bioswales of public improvement.

Location Description:

3520 18th Street
Metairie, Jefferson Parish, LA 70002

Activity Progress Narrative:

6/30/2026: Expenditures were for grant consulting fees. kp

Activity Description:

The improvements include mitigation measures to ensure the long-term resilience of the area along William Boulevard from I-10 to the Lake, making it stronger and better able to withstand impacts of future disasters. The site targeted for the Laketown Park and Harbor Improvements Project is currently vacant, undeveloped land. This project will not impact any historical properties.

Location Description:

Williams Boulevard, at Lake Pontchartrain
Kenner, Jefferson Parish, LA 70065

Activity Progress Narrative:

6/22/2026: Ida 2 increased by .88 to correct balance, per OCD Program. kp

Activity Description:

The proposed project would consist of flood risk reduction activities along the Heebe Canal and 25th Street Canal in Jefferson Parish, Louisiana. Flood risk reduction activities would include installing flap gates, improving drainage pipelines, 25th Street Canal improvements (i.e., dredging and reshaping of the canal and reconstructing 25th Street), and constructing a new pump station at the corner of 25th Street and the Heebe Canal. The project will also incorporate green infrastructure improvements project-wide to mitigate flood risk, particularly in an area which encompasses one of the highest concentrations of both Repetitive Loss (RL) and Severe Repetitive Loss (SRL) properties in Louisiana.
The performance metrics for this project includes improvements to 2736 feet of drainage pipe, 20 catch basins and construction of one public facility - a pump station. To measure the pump station's effectiveness, performance metrics can include stormwater gallons per day. These resiliency efforts address current vulnerabilities and build long-term resilience to reduce impacts from recurring and future natural disasters and climate change.

Location Description:

The 25th Street Canal Basin extends between the US Highway 90 (West Bank Expressway) to the Northwest, La. Highway 23 (Belle Chasse Highway) to the Northeast, Heebe Canal to the Southwest and Gretna Blvd to the Southeast.

Activity Progress Narrative:

6/23/2026: Creation of new Ida 1 activity 26LDRC7726 - JEF 25th Street Canal Improvements in RCIP, DRGR project 3122 for 3.1M. The proposed project would consist of flood risk reduction activities along the Heebe Canal and 25th Street Canal in Jefferson Parish, Louisiana. Flood risk reduction activities would include installing flap gates, improving drainage pipelines, 25th Street Canal improvements (i.e., dredging and reshaping of the canal and reconstructing 25th Street), and constructing a new pump station at the corner of 25th Street and the Heebe Canal. The project will also incorporate green infrastructure improvements project-wide to mitigate flood risk, particularly in an area which encompasses one of the highest concentrations of both Repetitive Loss (RL) and Severe Repetitive Loss (SRL) properties in Louisiana. The performance metrics for this project includes improvements to 2736 feet of drainage pipe, 20 catch basins and construction of one public facility - a pump station. To measure the pump station's effectiveness, performance metrics can include stormwater gallons per day. These resiliency efforts address current vulnerabilities and build long-term resilience to reduce impacts from recurring and future natural disasters and climate change. LMI is calculated at 63.07%. The 3.1M came from the cancelled/deleted activity 26LDRC7710 - JEF Gretna Green Corridors.

Activity Description:

The RCIP funding will be used to purchase property with an existing school building. Rehabilitation of the school building will be accomplished with other funding by the current owner. Currently, the design/planning for the repairs/rehabilitation should be ready to go to bid by 6/30/25. The project will then go out to bid with an estimated 12-18 months for the work to be completed. Once the repairs/rehabilitation are completed, Lafourche Parish Government will purchase the property with the existing school building.

Location Description:

201 Church St, Lockport, LaFourche Parish, Louisiana 70374

Activity Progress Narrative:

6/22/2026: Ida 2 reduced by 1,835,915.41 (from 1,847,215.40 to 11,299.99, amount disbursed). The 1,835,915.41 will remain unobligated until the Parish advises on another project to use the funding on and updated the Eligible Activity from Acquisition to Planning, per OCD Program. kp

Activity Description:

This is new construction of a building and will require an Environmental Assessment to enable Lafourche Parish to determine the degree of significant impact that this activity may have on the environment. There will be earthwork involved in the construction of the facility as well as internal and external construction. This activity uses the HUD local government LMI data set because the activity only benefits the entire locality and doesn't venture outside the locality's geographic boundaries.

Location Description:

2100 Veterans Blvd, Thibodaux, LaFourche Parish, Louisiana, 70301

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management fees and A/E design services. kp

Activity Description:

The project will consist of installing turf and repositioning the ballfields (see current position in Aerial View). Back stops will be repositioned and replaced as needed. Fencing will be repositioned and installed, and a concession stand will be built.
The activity uses the HUD local government LMI data set because the activity only benefits the entire locality and doesn't venture outside the locality's geographic boundaries.

Location Description:

241 Recreation Drive, Raceland, LaFourche Parish, Louisiana 70394. This activity is set up using Area Benefit Survey because the 2020 ACS was not available.

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management and A/E design services. kp

Activity Description:

The project will involve demolition, renovation and new construction. The existing main building will be renovated and will house the Carpentry, Electrical, Heating, Ventilation, and Air Conditioning (HVAC), Welding, Construction Management and CDL programs. The new building will house the Lineworker, Heavy Equipment Operator and Adult Basic Education (ABE) programs. Furniture, fixtures and equipment (FF&E) will be affixed to the buildings as needed. There will be earthwork involved and internal and external construction. It is likely that the existing footprint will be expanded by more than 20%. An environmental review will be required.

Location Description:

1425 Tiger Drive, Thibodaux, Lafourche Parish, Louisiana 70301

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services and environmental assessment. kp

Activity Description:

The project will involve new construction of a state-of-the-art food incubator on vacant city-owned land located at the intersection of N. Claiborne and St. Bernard Ave (1600-1636 N Claiborne; 1611 N. Robertson; 1505 St. Bernard Ave. New Orleans is known for its rich food culture, but the city lacks the infrastructure to support entrepreneurs in producing food products that can help businesses scale and entrepreneurs to gain wealth.

Location Description:

1600-1636 N Claiborne
New Orleans, LA 70116
Orleans Parish

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services. kp

Activity Description:

The Main Street Resilience Project will provide individual grants to small businesses located in six key commercial corridors in New Orleans to implement building modifications that enhance disaster resilience. Improvements may include elevating equipment, installing impact-resistant windows, flood protection measures, and other mitigation features. The project targets corridors serving predominantly low-to-moderate income (LMI) communities and supports long-term economic stability.

Location Description:

New Orleans, LA 70112
See map attached that identifies the commercial corridors

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services. kp

Activity Description:

This project will provide grants to eligible small businesses in six designated commercial corridors to install solar and battery backup systems, helping them prepare for future power outages. Businesses are selected through an application process and receive technical assessments to determine feasibility. Successful applicants enter into agreements with the City, receive compliance training, and are awarded grants to cover equipment and installation costs tailored to their specific needs.

Activity Description:

The project aims to reduce localized street flooding in the West End neighborhood of New Orleans by installing a modular tank system in Fleur De Lis Park to enhance stormwater storage and relieve pressure on Drainage Pump Station No. 12. This effort will complement other citywide resilience projects, reduce flood risks, support emergency response, and protect the community from future disasters with minimal disruption to existing infrastructure.

Location Description:

6701 Fleur De Lis Drive, New Orleans, Orleans Parish, LA 70124

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services. kp

Activity Description:

The City of New Orleans will establish an Energy Innovation Hub as part of the redevelopment of the former NSA East Bank campus. The Hub will support entrepreneurship, job creation, and community revitalization, particularly benefiting low-to-moderate income neighborhoods. CDBG-DR funds will be used to purchase and install specialized equipment and furnishings. The facility will be developed in partnership with GNO Inc. and the Baton Rouge Area Foundation, and will incorporate resilience features to support long-term economic and disaster recovery.

Location Description:

4400 Dauphine St.
New Orleans, LA 70117

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services. kp

Activity Description:

The Green Infrastructure Workforce Development project is a City of New Orleans initiative that partners with nonprofit organizations to train residents—primarily low- to moderate-income individuals—in green infrastructure skills. Through grants awarded via a competitive process, the City funds training expenses such as curriculum development, stipends, and equipment. The program aims to create long-term employment opportunities while enhancing community resilience and economic revitalization. It does not involve construction, and success will be measured by workforce development outcomes and the secure management of funded assets.

Location Description:

Orleans Parish, LA 70112

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services involving internal planning and drafting NOFA. kp

Activity Description:

The proposed project includes: 1) the removal and replacement of existing artificial turf and subsurface base material on eight (8) baseball fields at Val Reiss Park and 2) the removal and replacement of broken sidewalk panels and drop inlet castings at Val Reiss Park.

Location Description:

1101 Magistrate St., Chalmette, St. Bernard Parish, Louisiana 70043

Activity Progress Narrative:

6/30/2026: Expenditures were for turf replacement and sidewalk construction. kp
6/9/2026: Ida 2 reduced by 102,250 due to the Parish submitted a budget amendment request to decrease total CDBG funding for this activity (44LDRC7701) from 1,918,708 to 1,816,458, which is a difference of 102,250. MID budget adjusted accordingly. Ida 2 Activity 44LDRC7702 increased by the 102,250. kp

Activity Description:

The proposed project would allow St. Bernard Parish Government to clearly identify the location and address of the St. Bernard Parish Government Complex, the primary government building in St. Bernard Parish. The LED features on the sign would also allow public officials to share critical information with the public, including weather advisories, emergency alerts, evacuation instructions, and the like. This communication tool has utility not only in the context of the Hurricane Ida recovery, but will facilitate future mitigation, preparedness, response, and recovery efforts by providing local officials with an additional means of communicating messages to the public along the busiest thoroughfare in the parish.

Location Description:

8201 West Judge Perez Dr., Chalmette, St. Bernard Parish, Louisiana 70043. This activity is set up using Area Benefit Survey because the 2020 ACS was not available.

Activity Progress Narrative:

6/9/2026: Ida 2 increased by 102,250 due to grantee submitted a request to increase CDBG-DR funding for this activity (44LDRC7702) from 40,000 to 142,250, which is an increase of 102,250. MID budget adjusted accordingly. Ida 2 activity 44LDRC7701 reduced by 102,250. kp

Activity Description:

The Reserve Sidewalk Restoration and Replacement Project is a community infrastructure initiative aimed at improving pedestrian and bike access along a key corridor from Central Avenue to E 31st Street. Serving a predominantly low-to-moderate income area, the project enhances safety, accessibility, and sustainability through upgraded sidewalks, bike lanes, solar lighting, and green stormwater features. It supports inclusive mobility, promotes eco-friendly transit, and strengthens neighborhood connectivity.

Location Description:

Reserve Neighborhood Sidewalk Restoration and Replacement Bounding Streets:
Central Avenue, Reserve, LA (30.053653, -90.551586)
East 31st Street, Reserve, LA (30.050661, - 90.529083)
Reserve, St. John the Baptist, Louisiana 70084

Activity Progress Narrative:

6/30/2026: Expenditures were for project management services. kp

Activity Description:

This phase 1 planning project is part of a broader effort to revitalize older commercial districts in Tangipahoa Parish while ensuring these areas are more resilient to future disasters. The primary focus of this project application is to conduct a comprehensive planning initiative that assesses infrastructure, economic conditions, and disaster vulnerabilities in the older commercial areas of Amite, Kentwood, Roseland, Village of Tangipahoa, and Independence, with a particular emphasis on LMI communities.
Description of Construction/Rehabilitation:
This phase 1 project does not involve construction/rehabilitation, which will be addressed in phase 2 implementation.

Location Description:

Tangipahoa Parish

Activity Progress Narrative:

6/30/2026: Expenditures were for subrecipient staff payroll. kp
6/11/2026: Ida 1 reduced by 1,200.62 (from 5,000 to 3,799.38, amount disbursed) due to project is complete and ready for closeout, per OCD Program. MID budget adjusted accordingly. kp

Activity Description:

The scope of the work involves both reconstruction and rehabilitation of Hano Rd. The existing road has suffered damage due to flooding, heavy traffic from debris haulers, and age-related wear. The construction will include:
-Road Elevation and Reinforcement: Elevating the road in areas prone to flooding to reduce the impact of future stormwater accumulation.
-Drainage Improvements: Installing new culverts, ditches, and other drainage infrastructure to prevent water buildup and flooding.
-Pavement Reconstruction: Strengthening the roadbed with more durable, flood-resistant materials to support heavy vehicle loads, particularly during post-storm debris removal operations.

Location Description:

Hano Rd, Independence, Tangipahoa Parish, LA 70443.

Activity Progress Narrative:

6/30/2026: Expenditures were for environmental review, appraisal services, and surveys. kp

Activity Description:

The scope of the project includes the acquisition and rehabilitation by TPCG of an existing commercial building to serve the needs of the permanent Finding our Roots Museum. The rehabilitation will include reinforced concrete and durable materials, built to resist high wind loads, and designed for resilience. Additional improvements include removing outdated electrical wiring and plumbing, removing or rebuilding interior walls to facilitate an intentional flow for patron experience, and construction of display features for artifacts that must be protected from physical touch.

Location Description:

7938 Main Street, Houma, Terrebonne Parish, LA 70361

Activity Progress Narrative:

6/30/2026: Expenditures were for preparation for environmental review record, grant management services, and appraisals. kp

Activity Description:

Houma is the commercial center of Terrebonne Parish and serves as the parish seat. Hurricane Ida caused significant physical and economic damage to local businesses. In response, the Terrebonne Parish Consolidated Government (TPCG) has prioritized the Façade and Property Improvements Program to revitalize commercial areas, stimulate private investment, and improve the visual aesthetics and access of commercial building facades.

Eligible applicants are businesses in designated project areas in East and West Houma. The program aims to benefit households in surrounding communities, particularly those in low-to-moderate income (LMI) block groups.

Grant awards will be up to $50,000, determined by need, property size, and scope of work. The program involves steps for outreach, eligibility review, design work, construction, and closeout.

Activity Description:

The Terrebonne Small Business Grant Program provides up to $50,000 in direct financial aid to low-to-moderate income small business owners impacted by Hurricane Ida. Funded by CDBG-DR, the program addresses losses such as inventory and operational expenses, with no repayment required. Administered by SCPD, it ensures compliance with federal regulations and targets businesses that were active during the storm. With strong community support and no construction involved, the program is a key part of Terrebonne Parish's strategy for economic recovery and long-term resilience.

Activity Description:

This program will provide up to $50,000 in direct financial aid to low-to-moderate income fishermen impacted by Hurricane Ida. Funded by $1.25 million in CDBG-DR grants, the program aims to help fishers recover losses, replace equipment, and build resilience against future disasters. Administered by SCPD in partnership with TPCG, it responds to strong community support for preserving the local seafood economy and addresses past frustrations with aid programs.

Location Description:

Parishwide, TPCG Office 8026 Main St.

Activity Progress Narrative:

6/30/2026: Expenditures were for activities associated with preparation for environmental review record and grant management services. kp

Activity Description:

This Application is for PHASE II - Market Analysis & Investment Plan. The Plan will provide the analysis supporting the priority needs and infrastructure investment(s) to support sustainability and the long-term health of the seafood industry in the Parish. Many commercial fishermen are low-to-moderate income (LMI) and lack the financial resources to recover from losses or invest in the necessary improvements. The Plan will identify ways to serve the residents of Terrebonne Parish and its critical seafood industry.

Location Description:

TPCG Headquarters, 8026 Main Street, Houma, LA 70360

Activity Progress Narrative:

6/30/2026: Expenditures were for costs associated with grant management and vendor working on preparation of Market Analysis, Needs Assessment, and Investment Plan for sustainable infrastructure. kp

Activity Description:

The pump station will be strategically located to increase the conveyance of more water out of the bayou, thereby allowing Bonanza Pump Station to run at full capacity.

Location Description:

Main St. between Dunn St. and Intercoastal Waterway, Houma, LA 70360

Activity Progress Narrative:

6/30/2026: Expenditures were for preparation for environmental review, project management, and grant management. kp

Activity Description:

The CDBG-DR funds are intended to cover the 25% FEMA non-federal cost match requirement for the construction of the Bayou Black Pump Station. This activity uses the HUD local government LMI data set because the activity only benefits the entire locality and doesn't venture outside the locality's geographic boundaries.

Location Description:

756 Geraldine Road, Gibson, Terrebonne Parish, LA 70356

Activity Progress Narrative:

6/30/2026: Expenditures were for environmental review record, project management, IT, and grant management. There was a revision on 4/13/2026 to voucher 808610 that moved 42,193.02 out of activity 55LDRC7702 and into activity 53LDRC7702. Total expenditures for the quarter 21,688.75 - voucher revision 42,193.02 = (20,504.27) kp

Activity Description:

This project is designed to benefit residents in low- and moderate-income (LMI) areas along the Main Street corridor, particularly those who rely on walking or public transportation. The Main Street Improvements Project will involve extensive work along a 2.5-mile stretch on Main Street.

Location Description:

Main Street from St. Charles Street to Howard Avenue, Houma, Terrebonne Parish , LA 70363

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services. kp

Activity Description:

Project will install a new pipeline adjacent to the old one with upgraded materials suitable for the soil conditions of the area to provide better, more reliable water to the residents of communities in East Houma, which are primarily low to moderate income and creating much needed redundancy throughout the system for secondary impacts. Creating redundancy within the system addresses the resilience of the network more effectively.

Location Description:

Near North Hollywood and St Louis Canal, Houma, Terrebonne Parish, LA 70364. This activity is set up using Area Benefit Survey because the 2020 ACS was not available.

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services, IT, project management, and the environmental review preparation. kp

6/30/2026: Ida 2 increased by 24,400 (from 1.5M to 1,524,400) due to the grantee submitted a budget modification to increase the CDBG-DR funding by 24,400. MID budget adjusted accordingly. kp

Activity Description:

The construction work for this project will include site preparation. This initial phase involves mobilizing the necessary equipment and personnel, establishing staging areas, and implementing environmental protection measures to ensure minimal impact on the surroundings, particularly bird habitats. Dredging equipment will be utilized to extract the sediment, which will then be transported to designated disposal or reuse sites in Terrebonne Parish. Finally, the channels will be excavated to the target depth based on the survey results, followed by post-construction verification surveys to ensure all work meets design specifications.

Location Description:

Near 2478 Grand Caillou Road, near 310 Bayou Dularge Rd
Houma, Terrebonne Parish, LA 70363

Activity Progress Narrative:

6/30/2026: Expenditures were for grant management services and costs associated with preparation for environmental review. kp
6/8/2026: Ida 2 increased by 26,311.50 from unallocated IDA 2 funding into 55LDRC7710, per the Parish's request. The total project cost and DRGR funding amount increased from 6,200,000.00 to 6,226,311.50. MID budget adjusted accordingly. kp

Activity Description:

The current pump station lacks capacity due to age and system upgrades. The new project will replace it with modern technology, including a reinforced concrete structure, three high-service pumps, new electrical systems, and a backup generator. The SCADA system will enable remote monitoring and management, while advanced intake trash screens will prevent debris damage.

Location Description:

Freshwater pump station at Lefort Canal, approx. street address: 101 Lefort Bypass Road
Thibodeaux, Lafourche Parish, LA 70301

Activity Progress Narrative:

6/30/2026: Expenditures were for activities associated with preparation for environmental review record and grant management services. kp

Activity Description:

The new station will involve acquisition, site preparation, construction, and installation of specialized equipment. It will feature flood-resistant and wind-resistant construction techniques, durable materials, and a dual fuel generator. The demolition of the existing facility will return the land to a vegetative state, improving floodplain functionality.

Location Description:

Near the intersection of Lsta court and Highway 20
Schriever, Terrebonne Parish, LA 70395

Activity Progress Narrative:

6/30/2026: Expenditures were for activities associated with preparation for environmental review record and grant management services. kp

Activity Description:

The Louis Miller Terrebonne Career and Technical High School (LMTCT or "LMV") is operated by the Terrebonne Public School District (TPSD) and is currently spread across several buildings on a former Air Force Base campus, which were significantly damaged during Hurricane Ida. Due to its location in a floodplain and vulnerability to future hurricane and flood events, the TPSD has prioritized relocating the school to a single permanent location at 6310 St. Charles St., a building previously owned by Fletcher Technical Community College (FTCC).

The project will involve configuring classrooms with specialized equipment such as welding tools, auto body fire suppression systems, commercial ranges, and CNC milling machines. This will ensure that students receive hands-on training in various vocational programs.

Location Description:

Activity Progress Narrative:

6/30/2026: Expenditures were for activities associated with grant management services. kp

Activity Description:

Conversion of a vacant metal storage facility into the HHS Community Resources Annex to expand services for low-to-moderate income families, with renovations to improve accessibility, functionality, and disaster preparedness. The upgraded Annex will support food distribution, utility assistance, and a variety of community programs by providing secure storage and flexible space for daily operations and emergency response efforts.

Location Description:

4800 Highway 311, Houma, Terrebonne Parish, LA 70360

Activity Progress Narrative:

6/30/2026: Expenditures were for preparation for environmental review record and project management. kp

Activity Description:

The recreation center renovation will follow International Building Codes to improve resilience against natural disasters like hurricanes, floods, and heatwaves—risks heightened by climate change. The project is not tied to specific state plans but will address hazards such as fire, asbestos, and flooding through updated safety standards. Improvements include fire safety, drainage, electrical systems, accessibility, and energy efficiency using sustainable materials. Necessary permits will be secured to ensure compliance. Upgrades to plumbing, HVAC, and electrical systems will enhance long-term sustainability and reduce environmental impact.

Location Description:

738 E. Mill Street
Kaplan, LA 70548
Vermilion Parish

Activity Progress Narrative:

Activity Description:

This project aims to strengthen the city's resilience by providing a multi-use facility that offers year-round services in education, health, wellness, career development, and disaster relief—especially for youth. The facility will serve as a community hub and disaster response center, helping residents prepare for and recover from future events. The site, a 3-acre tract donated by The One Church of Houston to Nehemiah Projects of Acadiana, will undergo environmental clearance before construction, with no impact on historic areas.

Activity Description:

The project involves moderately intrusive construction requiring a full environmental evaluation. It includes demolishing existing structures and building a 3,200-square-foot metal facility for a drive-through sandbagging operation. The facility will house an industrial sandbag-filling machine and a generator for backup power. A canopy will cover the loading area for weather protection. Utility trenching will be done to provide electricity, water, and plumbing. The site will be cleared and prepared for a concrete foundation and a drive-through roadway.

Location Description:

1151 Dobson Street, Franklinton, Washington Parish, LA 70438

Activity Description:

The scope for this project includes the demolition of the current bridge and reconstructing a wider and safer bridge near the same location. The new bridge will have two lanes (as opposed to the current one lane) and wide shoulders or paths for pedestrians and bicycles. Safety features will be incorporated into the design and construction of the new bridge, including railings, signage, and high-visibility striping. Additionally, there will be enhanced drainage systems to manage stormwater.

Activity Description:

Construction for this project will be moderately intrusive thus the project will require a full environmental evaluation. The site improvements will result in the construction of a drive-through sandbagging operation that includes an industrial sandbag filling machine housed in a weather-rated metal building. A canopy will extend from the building over the loading area where vehicles and residents can be protected from the weather while they fill or have bags filled and load them into their vehicles. Trenching will be required to bring utilities to the building to support the sandbag-filling machine and building including electricity, water, and plumbing. The building will house a generator which will power the machine should there be an electrical outage due to severe weather. The project site area will be cleared and prepped for the building concrete foundation and drive-through roadway leading in and out of the site. The metal building will have a footprint of roughly 3,200 SF.

Location Description:

23052 Yacc Rd.
Franklinton, Washington Parish, LA 70438

Activity Progress Narrative:

6/30/2026: Expenditures were for activities associated with grant management. kp

Activity Description:

A plan to meet disaster recovery needs to fund debris removal (Urgent Need) activities in order assist 37 parishes from Hurricanes Laura, Delta, Ida and May floods. Investments in infrastructure repair and rebuilding in areas impacted by Hurricanes Laura, Delta, Ida and/or the May 2021 Severe Storms helps to secure investments in housing recovery and bolsters confidence in communities continuing to rebuild. Without assistance to meet the state and local match requirements, the infrastructure and resources typically provided by state and local governments will be severely at-risk, as the state and local governments will be required to either a) forgo assistance from FEMA PA or b) divert funding needed for other community needs toward meeting the match requirements. The state will dedicate funds to offset the burden of the non-federal share match requirements faced by state and local entities and jurisdictions.

Location Description:

Acadia, Allen, Ascension, Assumption, Beauregard, Caddo, Calcasieu, Cameron, East Baton Rouge, East Feliciana, Grant, Iberia, Iberville, Jefferson, Lafayette, Lafourche, Livingston, Natchitoches, Orleans, Plaquemines, Point Coupee, Rapides, Sabine, St. Bernard, St. Charles, St. Helena, St. James, St. John the Baptist, St. Mary, St. Landry, St. Martin, St. Tammany, Tangipahoa, Terrebonne, Vermillion, Vernon, Washington, and Winn

Activity Progress Narrative:

5/6/2026: L/D increased by 359,401.81 due to budget correction to balance L/D allocation. MID budget adjusted accordingly. Kp
